Email 2 Fax

Email 2 Fax

Email 2 Fax enables you to send a fax to anywhere in the world via email securely, eliminating the cost of buying and maintaining a fax machine, with the added flexibility of being able to manage your service 24/7 through our online control panel.

It features the same benefits as a fax:

- 3 attempts to retry undelivered documents
- Header description
- Delivery report

Benefits

- 24/7 Remote access
- Cost affective
- Confidential & secure
- Multiple users with no additional fee
- Set CLI as your Fax 2 Email number
- Environmentally friendly

Simple to use

- In the address field of a new email insert destination fax number followed by @first4fax.com (e.g 0800123456@first4fax.com)
- Attach document to be faxed and send
- You will be sent a delivery report on its success via email

We can allocate you a 4 digit pin for additional security

Ideal for

- Using Email 2 Fax, homeworkers and small businesses can send a fax without the financial outlay of buying and maintaining a machine.
- International travellers and frequent flyers use this service to ensure they can send a fax globally, saving time and money whilst eliminating the hassle of having to track down or plan for a fax machine.
- Large organisations that previously used several fax machines and lines have made great savings using Email 2 Fax with the added benefit of saving staff time and enhancing customer relations with a more personal service.

All our clients are provided with a dedicated Account Manager and the back up of an outstanding Technical Support team.
