

SMS Solutions

SMS Broadcast

SMS Broadcast

SMS Broadcast enables you to send mass messages direct to your target audience, quickly and cost effectively. Create groups, import and export multiple databases, personalise messages and create templates with a simple to use mail merge function. Full reports give campaign statistics on message delivery and invalid numbers plus out of hours messages can be set up.

Benefits

- Premium or standard messaging
- 24/7 Remote Access
- Cost Effective
- Simple to set up & user friendly
- Confidential & secure
- Full management report
- Flexible

Ideal for

- Schools, Local Authorities and Public Services often use SMS Broadcast to keep people informed of changes to services, closures, emergencies and special events quickly and simply, with the security of knowing the message is going directly to the intended recipient.
- Many Charities and Fund Raisers use SMS Broadcast in promotions and campaigns as a revenue generator.
- SMS Broadcast is used by groups, teams, networks and societies as a cost effective way to keep members and customers informed and up-to-date with the latest news, information and event reminders.

All our clients are provided with a dedicated Account Manager and the back up of an outstanding Technical Support team operating 7 days a week, 8am - midnight.
