

SMS Solutions
SMS Studio

SMS Studio

SMS studio combines all the benefits of the most popular SMS services in a simple to use package, accessible instantly and remotely, online 24/7. Fully interactive, you can pick and choose the most appropriate campaign for your requirements, as and when you need it. The service allows you to choose your keyword, set-up the response message and select the billing rate.

Competitions, data capture, product information, voting services and sales promotions can all be managed online and monitored by a suite of reporting tools, enabling you to respond intelligently and meaningfully to incoming data.

Benefits

- Premium or standard messaging
- 24/7 Remote access
- Cost Effective
- Simple to set up & user friendly
- Secure & confidential
- Full management report
- Flexible

Ideal for

- Businesses of all industries and size use this service as brochure requests service, to allow people to text in their details in order to receive further information on products and services offered.
- TV and various media channels often use this service for Voting, to allow people to cast their vote on different topics.
- Many companies allow people to pay for products and services, by texting in to receive a charge by text to cover the cost.
- More recently charities have been using this service to accept donations, allowing people to text in. A billed message is then sent back to the sender's mobile for money to be donated to the charity.

All our clients are provided with a dedicated Account Manager and the back up of an outstanding Technical Support team operating 7 days a week, 8am - midnight.
