

Hosted Solutions Call Conferencing

Call Conferencing

Meetings, brainstorm, presentations and reviews are all everyday essentials for most businesses, but often it is just not possible, timely or cost efficient to get everyone you need to speak to in the one room.

Call Conference resolves this problem simply and efficiently; A cost-effective self-managing tool that enables businesses to set up conference calls in a matter of seconds, or scheduled if preferred, bringing together all the required parties, whether they are based regionally, nationally or internationally.

Simple to Use

Participants simply call their allocated Conference Call number, having selected a Freephone (0800), Lo-call (0844) or Area Call (0161) number and enter the meeting PIN provided by the organiser (generated when the meeting is booked online). Upon the PIN being accepted, participants have the option of recording their name to be announced when they join or leave the call.

Features

- **Instant Access:** Online control panel for instant activation and a fully self-manageable service.
- **Scheduling:** Book the date and time of day for a Conference Call in advance.
- **Introduction:** Participants have the option to record their name for announcing when they join or leave the call.
- **Recording:** Record all or parts of the Conference Call, recordings (in WAV format) can then be emailed to participants or those unable to attend.
- **Watch Screen:** View all activity on the conference, including who is attending.
- **Reports:** View or circulate reports for all conference calls.
- **Security:** PIN access ensures no unwelcome guests.

Benefits

- **Cost effective:** Hosted service so no costly infrastructure and no contract.
- **Flexible:** Set up conference calls and invite participants as and when required, even during a call.
- **Simple to set up:** Integrates seamlessly into your in-house system.
- **Cost savings:** Save on travel, staffing and meeting costs.
- **24 / 7 Remote Access:** Set up meetings in seconds, anytime, from anywhere in the world.

All our clients are provided with a dedicated Account Manager and the back up of an outstanding Technical Support team operating 7 days a week, 8am - midnight.
