Fax 2 Email

Fax 2 Email

Fax 2 Email enables you to receive faxes direct to your inbox, saving on time, paper and money thus eliminating the cost of buying and maintaining a fax machine. The fax will be delivered as a PDF to your inbox which you can view on your computer or mobile device (Blackberry, iPhone etc). You then have the option to print, forward or save the document for later use.

Benefits

- 24/7 Remote access
- Cost effective
- Simple to set up & user friendly
- Secure & confidential
- Portable delivery: laptop, Blackberry, iPhone, smart phone etc.
- Environmentally friendly

Simple to use

- Choose a fax number you would like to use.
- Access the online control panel to allocate an email address to the number (using you personal PIN number).
- 24/7 access enables you to change the delivery email address(s) immediately, as often as required at any time.

Ideal for

- Accountants, Financiers, Solicitors and Barristers use this service to ensure they can receive important and confidential documents directly whilst out of the office. The fax can be viewed on a laptop with internet access, Blackberry, iPhone or other mobile email device, or printed off at home.
- Small, local businesses and home workers often use Fax 2 Email with a non-geographic number to help create a national presence, as well as saving on the cost of a fax and assisting in marketing. Reversely many large businesses use local numbers to appear regionally based.
- Busy Sales offices with one fax line constantly in use can mean delays in the recipient receiving important documents and orders being placed. Fax 2 Email cuts out the waiting, either delivering the email direct to the intended recipient or to be forwarded on in a matter of seconds to the order department.

All our clients are provided with a dedicated Account Manager and the back up of an outstanding Technical Support team operating 7 days a week, 8am - midnight.

To find out more or to ask for a demonstration, call one of our team of experts on 0844 556 7888.
